this-organiser Privacy Policy

1. Who we are

this-organiser is a task and work-organisation app made by SolwAI, based in Dumfries & Galloway, Scotland. This policy explains what personal information we collect when you use this-organiser, why we collect it, and the choices you have.

For the purposes of UK data protection law (the UK GDPR and the Data Protection Act 2018), SolwAI is the **controller** of the personal information described here, except where section 10 says otherwise.

- **Business name:** SolwAI sole trader trading as SolwAI
- **Address:** Queen of the South Arena, Dumfries, DG2 9BA
- **Email:** privacy@solwai.co.uk

This policy covers the this-organiser web app, any mobile or desktop versions, and the this-organiser pages of the SolwAI website. Other SolwAI products have their own policies.

2. What information we collect

We collect only what we need to run this-organiser and support you.

Your content	Tasks, notes, lists, projects, due dates, comments, attachments, assignments to colleagues	You and people you work with in the app

We do not ask for special category data (such as health, religion or ethnicity). Please don't put it in tasks or notes unless you need to.

3. How we use it, and our lawful basis

UK law requires a lawful basis for each use of personal information. Ours are:

What we do	Lawful basis
Create and run your account; store, sync and display your tasks	Contract — needed to provide the service you signed up for
Send service emails (log-in links, password resets, reminders you set, billing notices, important changes)	Contract
Take payment and keep financial records	Contract; legal obligation (tax and accounting records)
Keep the app secure, prevent abuse, fix bugs	Legitimate interests — running a safe, reliable service
Understand which features are used so we can improve them, using aggregated data	Legitimate interests
Answer support requests	Contract or legitimate interests
Send occasional product news	Consent, or soft opt-in for existing customers — you can unsubscribe at any time

We do not sell your personal information, and we do not use your task content for advertising.

4. AI features

Some this-organiser features use AI, for example [suggesting tasks, summarising notes, breaking a project into steps, or prioritising your list]. When you use one of these features, the text needed for that request is sent to our AI provider, Anthropic, to generate a result.

- Only the content needed for that request is sent, and only when you use an AI feature.
- Our AI provider processes it on our behalf under a data processing agreement and does not use it to train its models.
- [The provider may keep request data for up to [30] days for abuse monitoring, then deletes it.]
- AI suggestions can be wrong. Nothing an AI feature suggests is acted on until you accept it.
- We do not use AI to make decisions about you that have legal or similarly significant effects.

You can turn AI features off in Settings, and no content will then be sent to the AI provider.

5. Who we share it with

We share personal information only with service providers who help us run this-organiser, under written contracts that require them to protect it and use it only on our instructions.

We may also disclose information if the law requires it, to protect our rights or the safety of others, or to a buyer if SolwAI's business is sold (you would be told first).

International transfers. Where a provider handles data outside the UK, we rely on UK adequacy regulations (for example, for the EU) or the UK International Data Transfer Agreement or Addendum to protect it. Contact us for a copy of the safeguards.
